Dynamic and Impulsive Trompe L'Oeil Wallpapers

Standing still means falling behind – but these geometric shapes and forms, meandering lines, turbulent waves and fantastic net structures create a dynamic exuberance that brings movement into any room. Bizarre, striking, shrill, futuristic and fantastic; the modern wallpaper collection "Move Your Wall" is veritable op art. The visual trickery of the three dimensional patterns creates exclusive illusions. Reality and fantasy become one, leaving room for individual interpretation. These eye-catching wallpapers come in trendy russet, petrol blue, yellow ochre and shades of precious metal. And the impulsive trompe l'oeil effect will make the heart of anyone who loves dynamic spatial movement beat faster.
